

King County Women's Advisory Board

Informational Forum

King County

Family Friendly Working Environments and Wage Equity: Opportunities and Challenges in King County.

The King County Women's Advisory Board is holding an informational forum on how to identify, support, and improve family friendly workplace policies and wage equity between the genders throughout King County. We will be asking our speakers to propose specific solutions to these challenges.

The King County Women's Advisory Board's **mission** is to make recommendations to the King County Executive and the King County Council to ensure the needs, rights and well-being of women are taken into account by county government.

Our vision is to improve the lives of women in King County by continually listening to their concerns and being sensitive to their needs.

Wednesday, June 11, 2014
